RE: RESPIRATORY VIRAL INFECTIONS AMONG HEALTH CARE WORKERS

Please distribute the attached information from Hospital Epidemiology and Infection Control regarding measures to prevent the transmission of respiratory viral infections to hematology and oncology patients who may receive care throughout UCSF Medical Center and UCSF Children's Hospital.

This information should be reviewed with your staff, including attending physicians, residents, nurses and other health care workers. Please direct any questions concerning this document to Hospital Epidemiology and Infection Control at 353-4343.
