Subject: Sharps Safety at SFGH - Info for UCSF Physicians
Date: Wednesday, February 11, 2009 8:30:56 AM

Dear all: Please review this important link from SFGH that provides best practices about needlestick prevention and splashes.

Thanks,

Bobby Baron

Sharps Safety at SFGH - Info for UCSF Physicians

This internet link provides important information for Residents and Fellows rotating to SFGH. Several brief documents prepared by the SF DPH BBP Safe Device Committee highlight effective work practices to protect you from needlesticks and BBP splashes in any clinical setting. There is also a listing of safety sharps stocked at SFGH and instructions for use.

Simple steps during patient care - using safety sharps, wearing gloves/eye/face protection - protect your future health.
