The 2008 UCSF Flu Shot Outreach Program is now complete, however, it is not too late to get a free flu shot. Flu vaccinations for the current flu season will be available as long as the flu virus is present in the community (i.e., into Spring 2009) at both Parnassus and Mount Zion campuses. For locations and times see below.

If you will not be getting a flu shot this year, you must complete a Flu Shot Declination Form: http://hrreporting.ucsfmedicalcenter.org/InfluenzaVaccine/
