Subject: FW: Funding Opportunity for Residents

Dear UCSF Residents and Program Directors,

As many of you know, the UCSF Resident Research Program provides modest sums of money to UCSF residents for research activities. We have funded 37 residents thus far, and the deadline for the next round of applications is 10/15/09 (the deadline for subsequent round of applications is 5/15/10). Residents may request up to \$2000/year to support their research activities. The application is straightforward but you will need to get a brief letter of support from your research mentor to submit with the application. Late applications will not be accepted. We plan to fund 10 applications this year. See the website for additional details/instructions/application (<http://ctsi.ucsf.edu/training/advancement-for-residents> <<http://ctsi.ucsf.edu/training/advancement-for-residents>>), and please contact me (dbauer@psg.ucsf.edu) or Jacquelyn McNaughton (jmcnaughton@psg.ucsf.edu) if you have any questions.

Doug Bauer, MD
Director, UCSF Resident Research Program
