

UCSF School of Medicine Innovation Lab

Facilitator Application

As a facilitator in the Innovation Lab project, you will help lead design challenge teams through brainstorming sessions, prototype exercises, and mapping strategies. You will be required to complete a 3-hour training session with IDEO staff and to make a commitment to work with two of the awarded challenge teams over the next 18 months. Challenge teams will each have three formal half-day meetings.

Please complete the application below as well as submit a brief letter of support from your supervisor. The letter should include the supervisor's: commitment to the candidate; understanding of the time commitment involved; description of why the candidate would be a good facilitator; and potential need within the department or unit for a trained design facilitator.
